## **Colour, Profile & Hardware Comparison Guide**

# Frame Colours

## UPVC Frame Colour Options

At Abbey Windows we supply and install the highest quality Linear PVC products which are available in a wide range of standard and competitively priced colours and profile options; from traditional White and Ivory to realistic Woodgrain finishes, and increasingly more popular choices like Chartwell Green and anthracite grey, we have the perfect palette to suit your home in the Thames Valley area.

And for the bespoke service, we offer a 'Painted Service'. Virtually any colour is achieved using paint solutions that bond into your windows for a permanent colour enhancement.

Once you've chosen your preferred colour and finish, you can then select your profile shape to add a personal touch.

# Profile Options

## UPVC Frame Profile Options

Liniar's revolutionary multi-chambered profile comes in two styles. The standard Sculptured profile adds that extra touch of elegance to your home with traditional decorative detailing. Whilst the Chamfered system offers a more subtle approach with a clean and design that suits modern and traditional homes alike.

No matter which profile options you prefer, Abbey Windows can work with you to design your dream double glazing.

Standard Liniar Sculptured uPVC Profile

Liniar Chamfered uPVC Profile (Optional)

Both profiles shown with optional 'Energy Plus' frame enhancements.

## Sculptured

Our uPVC Liniar windows are offered as standard in our Sculptured 70mm frame. This design is ideally suited to homeowners looking to use the profile shape to create 'shadow lines' that break up the plastic surface area creating the feel of a thinner frame. An ideal solution for matching traditional timber frames or a contemporary feel, all the benefits of a state of the art uPVC profile.

# Profile Options

## Chamfered

Abbey's Liniar Chamfered or 'Bevelled' 70mm PVCu profile provides a simplistic finish emulating either traditional putty lines or clean surfaces for a modern window effect. Perfect for a wide range of window projects in Thames Valley area.

## Flush Casement

Flush casement windows are nothing new. With 500 year old timber examples still in use, the Liniar Flush frame has been sympathetically designed to emulate period wooden windows whilst offering the low maintenance and energy saving benefits of plastic.

# Hardware

## UPVC Window & Door Accessories

Here at Abbey Windows we understand that the fine details makes a difference. We have a wide range of window accessories available to help you complete the attractive aesthetics of your home.

From a choice of colours, hinge choices handles and other accessories, you can design the perfect windows, doors and conservatories of your dreams.

## Hinges

Easy Clean

The extra wide opening of the Easy Clean hinge makes maintaining your windows extremely easy and safe and is used as standard.

Industry Standard Hinge

All hinges are made exclusively in the UK using durable stainless steel hardware offering excellent corrosion resistance. The ISH is used for top hinged applications.

Egress

The Egress hinge opens wider to serve as an emergency exit in the event of a fire, but now with the ability to also slide across for easy cleaning too.

## Hinge Colours

White on White

Silver on Irish Oak

Smoked on Anthracite

Gold on Cream Foil

Black on Chartwell Green

Note – all colours shown are for guidance only and exact hardware used may vary slightly to those used. Exact products are displayed within our Show Centre.

Products shown relate to Liniar Window ranges only and may vary within other product ranges.
